

# TLC Introduces Globally Acclaimed STEM Programme for Primary After School Clubs to Foster Next-Gen Engineers

We are excited to announce that TLC offers Young Engineers “Bricks Challenge” educational STEM programme for our primary after school clubs Term 3.

Young Engineers operates engineering afterschool activities in over 50 countries. With over 30,000 happy students globally, Young Engineers has been recognised by the Harvard School of Education and the European Union Commission.

## Bricks Challenge Program Objectives

- The basics of classical mechanics that sparks students' imagination
- Develops their critical thinking
- Foster planning and time management skills
- Encourage independent creative thinking
- Develop ones ability to analyse engineering processes
- Improve spatial recognition
- Cultivate a sense of self-efficacy
- Expand interpersonal communication skills

For more details, please visit the Young Engineers [website](#) or visit our [Facebook](#) page.

## Monday's 15.00-16.00

The club will run from 8th May - 26th June 2023

TLC Secondary (Parklands)

Suitable for ages 6-10 (Primary School)

Monthly fee €60 per month per child

First Meeting - 15 minutes prior to the first lesson at the TLC Secondary to complete the registration.

Monthly fees can be paid by parents directly to Young Engineers
